

WOMEN OF FEDERATION PLAN WORK FOR FUTURE

Teaching of Personal and Sex Hygiene in Public and Normal Schools Advocated.

RAP AT COMIC SUPPLEMENTS

Publication of Details of Divorce and Crime Deplored—"Hats Off" Order Sends Ripple of Laughter Through Conference

San Francisco, June 26.—What the club women of the country are doing today, what they have done in the last four years, and what they intend to do in the future, were the general outlines of the valedictory delivered today by Mrs. Philip N. Moore, of St. Louis, retiring president of the General Federation of Women's Clubs, now in session here for its eleventh biennial convention.

"I believe," she said, "that the general federation now is united as never before. We have learned to know each other and to work together wonderfully well. The new officers will hold fast to all that has been good in the past and give a new outlook on the future. The great task of this generation is to live down the generation that still lags behind the times."

Among the accomplishments listed, Mrs. Moore said that the country at large had the club women to thank for the pure food law, the preservation of Niagara Falls from the greed of power companies, the passage of the Weeks bill for the conservation of forest lands and much legislation looking to the welfare of women and children.

For the future she urged the women address themselves particularly to international and industrial peace, regulation of the press and the drama, education, inspection of factories and a closer watch on national legislation affecting social and child life.

It was flattering to women that nearly every national organization looking for power came to seek the federation, she said.

"But this joining many organizations," cautioned Mrs. Moore, "helpful though it may be, brings added responsibility and great expense."

Her advice was that state divisions of the federation, as well as the national committee, should have a definite purpose, allowing departments and individual clubs to affiliate as they chose.

Raps Comic Sunday Supplements.
The Sunday comic supplement came in for sharp criticism as actually "delicious" and "amusing" but actually "trivial" and "humorous." Details of divorce, scandal and crime, she thought, were less and less tolerable to women. "An item of news," she said, "we must accept, but the unsavory details are no longer news."

Committee reports and routine business occupied most of the session. A ripple of laughter ran through the hall when the first rule reported by the committee on rules and regulations commanded that all insure the comfort and pleasure of all those present and remove their hats.

Professor Mary L. Sanford, of the University of Minnesota, spoke on moral power in the schoolroom. An evident influence to be guarded against, she said, is the fashion of wealth and luxury, the danger attending a liberal education of confounding luxury and license, and the influence of immoral instructors who prefer dissipated like Swinburne and Oscar Wilde to the great masters who have enriched our language and thought.

Mrs. O. Shepard Barnum, of Los Angeles, chairman of the department of education, reported in favor of teaching personal and sex hygiene in normal and public schools.

Mrs. M. W. Barry, of Sherman, Tex., said:

"From the mass of reports and private correspondence the committee submits the following facts:

"First—That it is generally conceded by educators, that there is urgent need for personal and sex hygiene instruction in our schools."

"Second—That such instructions should be grounded on biology."

"Third—That it should include more than mere physical facts."

"Fourth—That it is dangerous to introduce it into elementary and secondary schools until it is required in normal schools and in the university."

"Fifth—That such instruction is essential to eradicating the social evil and controlling disease."

Mrs. Philip N. Moore, the retiring president, believes with President Taft that it is the duty of a national officer to visit his constituency.

"During my four years of office," she said in her farewell address, "I have visited eighty principal cities and forty-one states on the business of the federation, and I have traveled more than seventy thousand miles."

"Infants six months old may be taught music, the color music system," Mrs. Fannie McKimsey Hughes, of St. Louis, told the federationists today. A child's education, she said, should begin when it is three months old—not later.

The principal paper on sex hygiene was read by Judge Clayton F. Herrington, of this city, who is connected with the Department of Justice. He urged the necessity of a sufficient congressional appropriation to make effective war upon and suppress the men who lure girls to ruin.

Advocates Appointment of Policemen.
Mrs. Alice Stebbins Wells, who is the first policewoman to be appointed in Los Angeles, discussed the need of policewomen for the protection of women and girls.

Through the Los Angeles delegation she has submitted a resolution for the consideration of the federation which urges the clubwomen to vote for the appointment of women to the police force of every large city in the country.

Mrs. Philip Carpenter, of New York, and Mrs. Percy V. Pennybacker, of Texas, are conducting a strenuous campaign for the presidency of the federation.

The Carpenter forces are maintaining a constantly aggressive campaign. If there is one club woman who does not know that Mrs. Carpenter is the candidate of the New York delegation it is because she is deaf and dumb and can't be reached in any of the ways known to science.

Miss Mary Garrett Hay, president of the New York State Federation, and the Housewives' League are working under her direction are leaving no stone unturned to insure the election of Mrs. Carpenter.

The candidate for president is not without her very loyal supporters. Her forces work hard in the tornado fashion that is popular in the New York delegation, but they keep on working, and their labors add to her strength every hour. Mrs. Pennybacker has the support of several members of the present board of the general federation and of past presidents as well.

While there is a constantly growing tendency in the federation to keep out the East and West, North and South, their reappearance in the preliminary days of the campaign shows that many of the club women are pledging themselves with the idea of location in mind.

Probably the most badly-wounded woman at the convention is Mrs. John F. Yawger, who comes as a delegate from New York

City clubs. She is wearing the pins of no less than twenty-one organizations.

Of the thirteen responses so far received from members as to the choice of a national flower, eight favor the laurel, the rest being scattered.

IMPURE MILK POISONS 18

Schenectady Threatened with Epidemic of Ptomaines.

[By Telegraph to The Tribune.]
Schenectady, N. Y., June 26.—Unless there is a quick change for the better in the milk situation here the city is threatened with an epidemic of ptomaine poisoning. Within the last twenty-four hours eighteen cases have developed, and the Municipal Board of Health is face to face with a serious problem.

Physicians who have been called in the various cases report the poisonings due to impure milk. Yesterday doctors were called to the houses at Nos. 102 and 104 South Church street, where three women and ten children were poisoned from drinking impure milk. Five more cases developed today, when the four children of John J. Parry and his sister-in-law, Miss Theresa Foley, were stricken after drinking milk at their morning meal. It required strenuous efforts on the part of physicians to relieve them.

Alarm is now spreading throughout the city, and many families have ceased buying milk. The Socialist Health Department is too hampered by insufficient employees to conduct a vigorous campaign against the sale of impure milk, and peddlers are apparently taking advantage of the situation.

After the milk was taken from the city, and many families have ceased buying milk. The Socialist Health Department is too hampered by insufficient employees to conduct a vigorous campaign against the sale of impure milk, and peddlers are apparently taking advantage of the situation.
